Designed For	Unified IP Conference Phone 8831
Packaged Quantity	2 (specifications are for single item)
Product Type	Microphone
Width	2.5 in
Depth	0.5 in
Height	3.5 in
Weight	2.36 oz
Recommended Use	Conference
Connectivity Technology	Wired
Frequency Response	160 – 20000 Hz

Product Details

Features and Benefits

The Cisco Unified IP Conference Phone 8831 offers many improvements. New features include:

● Superior wideband acoustics with the first two-element speaker in a conference phone; this feature allows the phone to capture the full voice spectrum without having to compromise with a single-element speaker

● Expanded room coverage with support for daisy chaining two units

● Support for optional DECT wireless extension microphone: sold separately

● Session Initiation Protocol (SIP) signaling

● Device authentication and signaling encryption using Transport Layer Security (TLS) with Advanced Encryption Standard 128 (AES-128)

● Media encryption using Secure Real-Time Transport Protocol (SRTP) with AES-128
